### **DETAILED ACTION**

Claims 1 to 3, 11 to 14, 16, 17, 21, 24, 27, 32, 38, 43 to 46, 55 and 56 are pending in the instant application. Claims 4 to 10, 15, 18 to 20, 22, 23, 25, 26, 28 to 31, 33 to 37, 39 to 42 and 47 to 54 have been cancelled as requested by Applicant in the correspondence filed 22 February of 2002. Claims 11 to 14, 16, 17, 21, 24, 27, 32, 38, 43 to 46, 55 and 56 are objected to as being dependant from a cancelled based claim. Because claims 11 to 14, 16, 17, 21 24 27, 32, 38, 42 to 46, 55 and 56 depend from one or more cancelled claims, they are not interpretable and, therefore, have not been further treated on the merits.

### ***Election/Restrictions***

Claims 1 to 3 are generic to a plurality of disclosed patentably distinct species of insect receptor protein comprising one of the 59 different amino acid sequences presented in SEQ ID NOs:1 to 59 of the instant application. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
